Summary

I am a focused and hardworking Computer Science graduate with skills in software development, web design, and data analysis. I know how to build strong and smart applications, work with databases, and use tools to understand data and help make better decisions. I'm looking for a chance to work on interesting projects in software or data-related roles.

Education

Bachelor of Science in Computer Science

2024

Savitribai Phule Pune University, Pune, Maharashtra, India

Skills

- **Programming Languages:** C, SQL, Java, JavaScript, Spring, Spring-Boot, Hibernate
- **Web Development:** HTML, CSS, JavaScript, Angular (Basics)
- **Databases:** MySQL
- **Development Tools:** Visual Studio Code, GitHub, Eclipse IDE
- **Operating Systems:** Red Hat Linux, Windows
- **Methodologies:** Object-Oriented Programming (OOP)
- **Soft Skills:** Communication, Team Collaboration, Problem-solving, Time Management
- **Other Skills:** API Integration Debugging

Projects

Employee Management System (EMS)

Developed a backend system with full CRUD operations and advanced filters using RESTful APIs Utilized MySQL with Spring Data JPA for efficient data management

Weather Forecasting Web Application

Developed a dynamic and interactive weather forecasting web application using HTML, CSS, and JavaScript. The application fetches real-time weather data from an API and displays it in a user-friendly interface. Real-time Weather Updates: Dynamically retrieves and displays current weather conditions, including temperature, humidity, wind speed, and more

Certifications

- Complete Java Full Stack Development Course at The Kiran Academy.
- OASIS INFOBYTE— Intern February-March 2024 1 month AICTE OIB-SIP internship in Web Development
- completed a short-term course on Spring and Hibernate

Additional Information

- **Languages:** English (Fluent), Hindi (Fluent), Marathi (Native)
